

Ganderland: A Mother Goose and Father Gander Musical

Based on the author's book, *Father Gander Nursery Rhymes*, Ganderland is the story of a quest for a "Land of the sun, where the fields are gold, where the boys are kind and the girls are bold, and everybody's welcome in the Gander fold," as one of the raps says. Jackson and the Wheelies bully and terrorize Jillian, the Orphs and wheel-chair bound Tom, the Piper's Son, past the Downy Dell, the Desert of Despair and the River of Broken Dreams on their musical journey to the land of Golden skies

The show is filled with six raps, twenty songs, marching and dance numbers, trick skating, and lots of energy. There's also a little pathos to go with the fun, as Jack, Jill and Tom the Piper's son find themselves in a love triangle, and a family that has been split apart works toward reunion.
